As of September 30, 2021, consolidated assets of APC Group, Inc. and its subsidiaries (the Company) amounted to ₱260.5 million, ₱7 million (3%) lower compared to the December 31, 2020 balance of ₱267.4 million.

- Cash decreased mainly due to the disbursements for the general and administrative expenses amounted to ₱6.3 million and the reimbursable expenses related to the Kalinga Project presented as part of the receivables in the consolidated statement of financial position.

The Company's consolidated liabilities amounted to ₱113.7 million. The movement in this account pertains to the payment of the accrued and other payables.

Total equity as of September 30, 2021 and December 31, 2020 amounted to ₱146.8 million and ₱152.8 million, respectively. The decline, amounting to ₱6.1 million, is attributable to the net comprehensive loss incurred during the period.

There were no off-balance sheet transactions.

The Company ended the 3rd quarter of 2021 with a net loss of Php5.9 million. The higher net loss versus the loss incurred in the same period in 2020 is attributable mainly to the lower interest income from its cash and cash equivalents and lower dividend income from its investments, coupled with the increase in general and administrative expenses of the Company.

Unrealized mark-to-market loss on its investments at FVOCI contributed to bringing the Company's comprehensive loss to ₱6.1 million as of September 30, 2021.

As of September 30, 2021, except for what has been noted in the preceding, there were no material events or uncertainties known to management that had a material impact on past performance, or that would have a material impact on the future operations, in respect of the following:

- Known trends, demands, commitments, events or uncertainties that would have a material impact on the Company;
- Material commitments for capital expenditures that are reasonably expected to have a material impact on the Company's short-term or long-term liquidity;
- Known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations;
- Significant elements of income or loss that did not arise from the Company's continuing operations;
- Seasonal aspects that had a material impact on the Company's results of operations; and
- Material changes in the financial statements of the Company for the periods ended September 30, 2021 and September 30, 2020, except those mentioned above.

KEY PERFORMANCE INDICATORS

Management uses the following key performance indicators to evaluate the performance of the Company and its subsidiaries. Except for Net Income, these key performance indicators are not measurements in accordance with Philippine Financial Reporting Standards (PFRS) and should not be considered as an alternative to net income or any other measure of performance which are in accordance with PFRS.

1. **Return on Assets Ratio (ROA).** Return on Assets is an indicator of how profitable a company is relative to its total assets. ROA gives an idea as to how efficient management is at using its assets to generate earnings and is calculated by dividing the Company's annual earnings by its total assets.
2. **Return on Equity Ratio (ROE).** Return on Equity measures how much profit is generated with the money shareholders have invested in the Company. It is expressed as a percentage and calculated by dividing net income by total Stockholders' Equity.
3. **Current Ratio.** Current ratio is computed by dividing current assets by current liabilities. This indicates the liquidity of the Company in the short term and measures the peso amount of current asset available to cover a peso amount of current liability.
4. **Debt-to-Equity Ratio (DER).** DER gives an indication of the Company's leverage position and is computed by dividing total liabilities with total stockholders' equity.
5. **Asset-to-Equity Ratio (AER).** Asset-to-Equity Ratio is computed using total assets divided by the total stockholders' equity. This ratio shows the relationship of the total assets of the firm owned by shareholders and an indicator of the leverage used to finance the Company.

The table below shows the comparative figures of the key performance indicators for the period in review.

Discussion on the key performance indicators

Return on Assets Ratio and Return on Equity Ratio

The Company's ROA and ROE as of September 30, 2021 and 2020 are negative due to the reported net loss for both years. There is no significant change in the ROA and ROE of the Company as of September 30, 2021 and 2020.

Current Ratio

Current ratio declined from 0.23 as of December 31, 2020 to 0.17 as of September 30, 2021 due to the decline in the cash balance of the Company as discussed above.

Debt to Equity Ratio

There is no significant change in the debt to equity ratio of the Company as of September 30, 2021 and as of December 31, 2020.

Assets to Equity Ratio

There is no significant change in the asset to equity ratio of the Company as of September 30, 2021 and as of December 31, 2020.

PART II OTHER INFORMATION

2. RISK EXPOSURES

Financial Risk Management

The Company’s principal financial instruments comprise advances from related parties. The main purpose of these financial liabilities is to finance the Company’s operations. The Company has cash and cash equivalents, trade and other receivables, deposits and trade and other payables that arise directly from its operations. Other financial instruments consist of financial assets at fair value through other comprehensive income (FVOCI) and advances from a related party.

The main risks arising from the Company’s financial instruments are credit risk, liquidity risk and equity price risk. The BOD and the management review and approve policies of managing each of the risks and they are summarized below.

Credit Risk

Credit risk is the risk that a counterparty will not meet its obligation under a financial instrument or customer contract, leading to a financial loss.

Exposure to credit risk is monitored on an ongoing basis, credit checks are performed on all clients requesting credit over certain amounts. Credit granted is subject to regular review, to ensure it remains consistent with the customers’ current credit worthiness and appropriate to the anticipated volume of business. The investment of the Company’s cash resources is managed so as to minimize risk while seeking to enhance yield. The Company is exposed to credit risk, if the counterparty is unwilling or unable to fulfill its obligations and the Company consequently suffers financial loss. Credit risk management involves entering into financial transactions only with counterparties with acceptable credit rating.

There are no significant concentrations of credit risk within the Company. Since the Company trades only with recognized third parties, there is no requirement for collateral. The carrying values of the Company’s financial assets represent the maximum exposure to credit risk as at the reporting date.

Liquidity Risk

Liquidity risk arises from the possibility that the Company may encounter difficulties in raising funds to meet commitments from financial instruments. The Company’s objective is to maintain continuity of funding. The Company’s policy is to maximize the use of suppliers’ credit for all its major purchases and limit major capital expenditures at a reasonable level.

The Company monitors its cash position by a system of cash forecasting. All expected collections, check disbursements and other payments are determined on a weekly basis to arrive at the projected cash position to cover its obligations.

Equity Price Risk

The Company's investments in equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on equity portfolio are submitted to the Company's senior management on a regular basis. The Company's BOD reviews and approves all equity investment decisions.

There is no material change in the financial risk exposures of the company and its subsidiaries particularly on currency, interest, credit, market and liquidity risks on its September 30, 2021 interim financial statements compared to the December 31, 2020 audited consolidated financial statements of APC Group Inc.
