## PART I - BUSINESS AND GENERAL INFORMATION

### Item 1. Business

APC Group, Inc. (the Parent Company or APC) and subsidiaries (collectively referred to as the Company) were all incorporated in the Philippines and are registered with the Philippine Securities and Exchange Commission (SEC). The Parent Company was incorporated in the Philippines on October 15, 1993 and was originally organized to engage in the oil and gas exploration and development in the Philippines. On April 30, 1997, the Philippine SEC approved the change in the primary purpose of the Parent Company to that of a holding company. The Parent Company's shares of stock are publicly traded in the Philippine Stock Exchange (PSE).

The registered office address of the Parent Company is G/F MyTown New York Bldg., General E. Jacinto St. corner Capas St., Brgy. Guadalupe Nuevo, Makati City.

The subsidiaries of the Company are as follows:

Company	Date of Incorporation	Percentage of Ownership
APC Cement Corporation (APC Cement)	November 15, 1994	100%
APC Energy Resources, Inc. (APCERI - formerly Aragorn Coal Resources, Inc.)	January 31, 2005	100%
Aragorn Power and Energy Corporation (APEC)	January 6, 2005	95.6%
PRC-Magma Energy Resources Inc. (PRC - Magma)	June 10, 2009	85%
APC Mining Corporation (APC Mining)	March 17, 2005	83%

### Status of Operations

In 2005, the Company created Aragorn Power and Energy Corporation (APEC), a subsidiary. This company was established in line with the government's thrust in developing the country's energy sector. Thus, the Company will concentrate in energy resource exploration and development. The government's thrust to encourage investments in the energy sector augurs well with the Company's investment direction. Other subsidiaries are in the pre-operating stage.

As at December 31, 2018, the following are the status of operations of the Company.

#### a. APEC

As at December 31, 2018, APEC is still in the exploration stage. It was established to engage in energy resource exploration and development.

In 2008, APEC was granted a Geothermal Service Contract (GSC) by the Republic of the Philippines, through Department of Energy (DOE), for the exploration, development and exploitation of geothermal resources covering a total area of 26,139 hectares located in the Province of Kalinga. The GSC was granted after a Certificate Precondition from the National Commission of Indigenous People, covering a major portion of the geothermal service area, was secured. The GSC was converted into a Geothermal Renewable Energy Service Contract (GRESK) in March 2010 to avail of the incentives provided under the Renewable Energy (RE) Act of 2008. GRESK has a term of not exceeding 25 years (including the used term under the GSC) and renewable for not more than 25 years. The total period from pre-development stage to the development/commercial stage shall not exceed 50 years.

In November 2010, APEC and its partner Guidance Management Corporation (GMC) forged a partnership with AllFirst Kalinga Ltd. (AKL), formerly Chevron Kalinga Ltd., a wholly owned subsidiary of AllFirst Geothermal Philippines Holdings, Inc., formerly Chevron Geothermal Philippines Holdings, Inc., in developing the geothermal area. The parties signed a Farm-out Agreement (FOA) which gives APEC and GMC the option to take an equity position of up to 40% in the geothermal project. The parties also signed a Joint Operating Agreement. Under the agreement, AKL will be responsible for the exploration, development and operation of the steam field and power activities.

On August 13, 2018, APEC has secured an extension of the GRESC exploration period from DOE until September 23, 2020.

On August 14, 2018, pursuant to Executive Order No. 30, the Energy Investment Coordinating Council (EICC) through the Department of Energy approved the application of APEC for its Kalinga Geothermal Project (KGP) to qualify as an Energy Project of National Significance. The Certificate of Energy Project of National Significance (CEPNS) for Pre-Development Phase, entitles the KGP to all the rights and privileges provided for under Executive Order No. 30 series 2017.

On September 18, 2018, AKL assigned its Farm-out interest and all its associated rights and obligation under the FOA and related agreements to its affiliate, Allfirst Kalinga Holdings, Inc.

As at February 15, 2019, APEC has completed sub-phases 1 and 2 covering, geochemical and geophysical surveys. APEC is already in the sub-phase 3 stage of the project. In line with this, APEC has already secured a Certificate of Non-Coverage for the access roads construction, improvement of existing roads and drilling of well-pads from the Department of Environment and Natural Resources (DENR). The surveys for the detailed engineering design of these roads and well pads have been completed. Accordingly, activities such as right-of-way negotiations, supplier bidding and contract preparations related to the road construction and drilling will follow.

The consent of nine (9) out of eleven (11) ancestral domains has been secured covering 85% of the GRESC area. In addition, all of the Community Development (CD) Projects have been fully completed and turned over to the respective community beneficiaries.

This KGP involves the development of steam fields that can generate around 120 megawatts (MW) of new capacity, providing an additional source of clean, indigenous and reliable baseload power to the Luzon grid. A 120 MW geothermal project will approximately cost more than US\$300 million.

b. APC Energy

APC Energy was established to engage in exploration, development and utilization of renewable energy resources. As at December 31, 2018, it is still in the pre-operating stage.

c. APC Mining

APC Mining was organized to engage in mining, processing, manufacturing, buying and selling of all kinds of ores, metals and minerals. As at December 31, 2018, it is still in the pre-operating stage.

d. APC Cement

APC Cement was established to engage in the manufacture of cement. As at December 31, 2018, it is still in the pre-operating stage.

e. PRC Magma

PRC-Magma was established to engage in the business of exploration, development, and processing of renewable and non-renewable energy resources, including but not limited to wind power, solar power, hydropower, biofuels, biomass, and coal; exploration, mining and processing of metalliferous and non-metalliferous mineral and ore resources; trading and supply of energy and mineral resources; and generation of electric power using energy resources. As at December 31, 2018, it is still in the pre-operating stage.

### Employees

APC Group Inc. had a total of 7 employees as of December 31, 2018.

### **Risks**

Some of the risks that the Company and its related subsidiaries and affiliates may be exposed to are the following:

#### *Contractors and Suppliers*

Contractual arrangements with contractors may not meet the Company's performance standards. To serve as safeguards to these eventualities, performance bonds may be required for contractors.

#### *Government Regulations*

APC is subject to certain laws and regulations of various branches of the government, such as the local governments, the Department of Environment and Natural Resources ("DENR"), etc. APC has complied with the licensing and regulatory requirements necessary for its operations.

#### *Changes to the Philippine Laws and Regulations*

Although laws and regulations are enacted for the common benefit, changes to these laws and regulations may create negative effects to the operating and financial condition of APC, including its subsidiaries and affiliates.

#### *Information Technology*

With the current business environment, Information Technology risks are ever increasing. These cover unauthorized access to confidential data, loss or release of critical information, corruption of data, regulatory violations, and possible increase in costs and inefficiencies.

In order to address these risks, APC may adapt a co-location arrangement with redundant capability and automatic fail-over set-up for disaster recovery. It continues to implement enterprise security solutions to manage external and internal threats. Annual review of technology roadmap to ensure the alignment between the business and information technology is performed.

#### *Data Privacy*

APC may be at risk for breach of data privacy as detailed information is gathered from suppliers, contractors and other business partners. This risk is mitigated through company-wide orientation on the Data Privacy Act, the topics of which include legal bases and implementing rules and regulations, rights of the individuals owning the information, exercising breach reporting procedures and other advisories.

### *Enterprise Risk Management Committee*

The Company has an Enterprise Risk Management Committee (ERMC) which is an oversight committee created to act as the monitoring body for the individual risk management activities of the Corporation. The ERMC has the responsibility of developing a formal framework to assist the Company in managing its risks and is mandated to report regularly to the Risk Management Committee on any risk concerns.

APC Group, Inc. reported consolidated net loss of ₱11.5 million for 2018, 30% better than the ₱16.4 million net loss reported in the previous year.

#### **Revenue**

The Company recorded revenues of ₱3.8 million for the year ended 2018, 6% lower than the ₱4.1 million revenues recognized in 2017. This decrease in revenue is due to the Company's lower interest income from money market placements because the cash and cash equivalent decreased by 26% during the period. On the other hand, dividend income increased by 56% in 2018 due to higher dividends declared and paid from the Company's available-for-sale (AFS) investments.

#### **Costs and Expenses**

The Company's costs and expenses amounting to ₱12.4 million in 2018 is 40% lower than the ₱20.5 million expenses recorded in 2017 due to the one-time expenses incurred by the Company in 2017 comprising of the listing fee and professional fees paid amounting to ₱4.9 million and ₱2.9 million, respectively.

#### **Other Income (Expenses)**

The Company incurred a loss of ₱3.0 million from the sale of investment properties with a total fair market value of ₱12.3 million.

### Assets

The Company recorded consolidated assets of ₱279.9 million as at December 31, 2018, lower by 6% from ₱297.0 million in 2017. The main movements in the balance sheet are as follows:

- Cash and cash equivalents amounted to ₱144.8 million as of December 31, 2018, 26% lower compared to ₱196.6 million as of December 31, 2017. The decrease was mainly attributable to the additional exploration costs of Aragorn Power and Energy Corporation (a subsidiary) (APEC) and the release of the 2<sup>nd</sup> tranche funds for the Kalinga project community development scholarships for the school year 2017-2018 which are presented as part of Other noncurrent assets account. The decrease was slightly offset by the collection from the sale of investment properties.
- Available-for-sale financial assets decreased by 40% as a result of the movement in stock prices of the shares held by the Company as of December 31, 2018.
- Investment property decreased by 55% or ₱12.3 million due to the sale of parcels of lots in Cebu in 2018.
- Other noncurrent assets increased by 85% due to the additional deferred exploration costs of APEC.

### ***Liabilities***

The Company's consolidated liabilities decreased slightly by 2% due to the release of the 2<sup>nd</sup> tranche funds for community development scholarships for the school year 2017-2018.

### ***Equity***

Stockholders' equity decreased by 8% from ₱183.1 million in 2017 down to ₱168.1 million in 2018 due to comprehensive net loss and unrealized mark-to-market loss on AFS recognized in 2018 amounting to ₱11.5 million and ₱3.5 million, respectively.

The Company does not foresee any cash flow problems during the next twelve months. The Company has enough cash to meet cash requirements in 2019.

There were no off-balance sheet transactions.

As of December 31, 2018, except for what have been mentioned in the preceding, there were no material events or uncertainties known to management that had a material impact on past performance, or that would have a material impact on the future operations, in respect of the following:

- Known trends, demands, commitments, events or uncertainties that would have a material impact on the Company;
- Material commitments for capital expenditure;
- Known trends, events or uncertainties that are expected to have a material impact on revenues from continuing operations;
- Significant elements of income or loss that did not arise from the Company's continuing operations aside from those mentioned in this report;
- Seasonal aspects that had a material impact on the Company's results of operations; and
- Material changes in the financial statements of the Company from the year ended December 31, 2018 to December 31, 2017.

### **PLAN OF OPERATION**

The Company will focus on the following directions in the next 12 months:

1. Continue with the development of its geothermal resources. Pursue the exploration work program for the Kalinga project.
2. Seek other renewable energy development investment opportunities.

APC Group, Inc. reported consolidated net loss of ₱16.4 million for 2017, 65% better than the ₱47.1 million net loss reported in the previous year.

#### Revenue

The Company recorded revenues of ₱4.1 million for the year ended 2017, 200% higher than the ₱1.4 million revenues recognized in 2016. This increase in revenue is due to the Company's higher interest income for 2017 as the Company continues to invest its cash in interest-earning investments.

#### Costs and Expenses

The Company's costs and expenses amounting to ₱20.5 million in 2017 is 41% lower than the ₱34.8 million expenses recorded in 2016 due to the following:

- One-off recording of provisions were in 2016 was not present in 2017;
- 2017 recorded lower taxes and licenses versus 2016 wherein the Company capital gains taxes on the sale of investment properties;
- Rental and utilities are lower in 2017 in line with the Company transferring to an office space with a lower lease rate.

#### Other Income (Expenses)

Other expenses decreased by 100% in 2017 as the Company recognized one-off losses in 2016 related to the sale of investment property and others, which are only partially offset by the gain on fair value change in investment property.

### Assets

The Company recorded consolidated assets of ₱297.0 million as at December 31, 2017, lower by 6% from ₱317.2 million in 2016. The main movements in the balance sheet are as follows:

- Cash and cash equivalents increased by 42% from ₱138.6 million in 2016 to ₱196.6 million in 2017. This is mainly attributable to the full collection on the outstanding receivables from the sale of investment property amounting to ₱80.0 million during the year. The increase in cash was offset by disbursements for general and administrative expenses amounting to ₱ 20.5 million.
- In relation to the collection of receivables, trade and other receivables decreased by 99% from 2016.
- Available-for-sale financial assets increased by 15% from ₱7.5 million in 2016 to ₱8.7 million in 2017 mainly due to the favorable increase in market price of stocks held by the Company as of yearend.

### Liabilities

Consolidated liabilities decreased by 5% or by ₱5.5 million. This is primarily due to the payment of trade and other payables of the Company especially in relation to the community development of APEC.

### ***Equity***

Stockholders' equity decreased by 7% from ₱197.8 million in 2016 down to ₱183.1 million in 2017 due to comprehensive net loss recognized in 2017 amounting to ₱14.6 million.

The Company does not foresee any cash flow problems during the next twelve months. The Company has enough cash to meet cash requirements in 2018.

There were no off-balance sheet transactions.

As of December 31, 2017, except for what have been mentioned in the preceding, there were no material events or uncertainties known to management that had a material impact on past performance, or that would have a material impact on the future operations, in respect of the following:

## KEY PERFORMANCE INDICATORS

Management uses the following key performance indicators to evaluate the performance of the Group. Except for Net Income, these key performance indicators are not measurements in accordance with Philippine Financial Reporting Standards (PFRS) and should not be considered as an alternative to net income or any other measure of performance which are in accordance with PFRS.

1. **Return on Assets Ratio (ROA).** ROA is an indicator of how profitable a company is relative to its total assets. ROA gives an idea as to how efficient management is at using its assets to generate earnings and is calculated by dividing the Company's annual earnings by its total assets.
2. **Return on Equity Ratio (ROE).** ROE measures how much profit is generated with the money shareholders have invested in the Company. It is expressed as a percentage and calculated by dividing net income by total Stockholders' Equity.
3. **Current Ratio.** Current ratio is computed by dividing current assets by current liabilities. This indicates the liquidity of the Company in the short term and measures the peso amount of current asset available to cover a peso amount of current liability.
4. **Debt-to-Equity Ratio (DER).** DER gives an indication of the Company's leverage position and is computed by dividing total liabilities with total stockholders' equity.
5. **Asset-to-Equity Ratio (AER).** AER is computed using total assets divided by the total stockholders' equity. This ratio shows the relationship of the total assets of the firm owned by shareholders and an indicator of the leverage used to finance the Company.

The table below shows the comparative figures of the key performance indicators for the period in review.

### Discussion on the key performance indicators

#### **Return on Assets Ratio and Return on Equity Ratio**

The Company's ROA and ROE for 2018 and 2017 are negative due to the reported a net loss for both years. The negative ratio improved for 2018 because of the decrease in the net loss incurred in the current year compared to 2017.

#### **Current Ratio**

Current Ratio decreased by 0.46x in 2018 due to the decrease in the current assets brought by the additional exploration costs of a subsidiary and payment of liabilities and general and administrative expenses.

**Debt to Equity Ratio**

There is no significant change in the Company's debt to equity ratio as of December 31, 2018 and 2017.

**Assets to Equity Ratio**

There is no significant change in the Company's assets to equity ratio as of December 31, 2018 and 2017.

### **External Audit Fees and Services**

1. Audit fees for the audit of the Company's annual financial statements amounted to ₱486,000 and ₱450,000 in 2018 and 2017, respectively.
2.
  - a. No other assurance and related services were rendered in 2018 and 2017.
  - b. No tax services were rendered by the external auditor in 2018 and 2017.
  - c. There were no other fees paid to the external auditor in 2018 and 2017.
  - d. The audit committee approved the policies and procedures of the above services. The Board of Directors has established an audit committee to provide oversight of the external audit function and review of the internal audit function of the company.

Among the policies and procedures of the audit committees are:

- a. Assist the Board in the performance of its oversight responsibility for the financial reporting process, system of internal control, audit process, and monitoring of compliance with applicable laws, rules and regulations.
- b. Provide oversight over Management's activities in managing credit, market, liquidity, operational, legal and other risks of the Company. This function shall include regular receipt from Management of information on risk exposures and risk management activities.
- c. Perform oversight functions over the Company's internal and external auditors. It should ensure that the internal and external auditors act independently from each other, and that both auditors are given unrestricted access to all records, properties and personnel to enable them to perform their respective audit functions.

- d. Review the annual internal audit plan to ensure its conformity with the objectives of the Company. The plan shall include the audit scope, resources, and budget necessary to implement it;
- e. Prior to the commencement of the audit, discuss with the external auditor the nature, scope and expenses of the audit, and ensure proper coordination if more than one audit firm is involved in the activity to secure proper coverage and minimize duplication of efforts.
- f. Organize an internal audit department, and consider the appointment of an independent internal auditor and the terms and conditions of its engagement and removal;
- g. Monitor and evaluate the adequacy and effectiveness of the Company's internal control system, including financial reporting control and information technology security, to ensure the integrity of the financial reports and protection of assets of the Company for the benefit of all shareholders and other stakeholders.
- h. Review the reports submitted by the internal and external auditors.
- i. Review the quarterly, half-year, and annual financial statements before their submission to the Board, with particular focus on the following matters:
  - i. Any change/s in accounting policies and practices
  - ii. Major judgmental areas
  - iii. Significant adjustments resulting from the audit
  - iv. Going concern assumptions
  - v. Compliance with accounting standards
  - vi. Compliance with tax, legal, and regulatory requirements.
- j. Coordinate, monitor and facilitate compliance with laws, rules and regulations;
- k. Evaluate and determine the non-audit work, if any, of the external auditor, and review periodically the non-audit fees paid to the external auditor in relation to their significance to the total annual income of the external auditor and to the corporation's overall consultancy expenses. The committee shall disallow any non-audit work that will conflict with his duties as an external auditor or may pose a threat to his independence. The non-audit work, if allowed, should be disclosed in the corporation's annual report;
- l. Establish and identify the reporting line of the Internal Auditor to enable him to properly fulfill his duties and responsibilities. He shall functionally report directly to the Audit Committee. The Audit Committee shall ensure that, in the performance of the work of the Internal Auditor, he shall be free from interference by outside parties.

### Board Performance Evaluation

The Company conducts annual performance evaluations of the Board of Directors, its individual members and Board Committees to ensure optimum Board performance. In this evaluation process, directors identify areas for improvement, some of which are: the timeliness and integrity of information given to them, directors' access to management, the Corporate Secretary and Board Advisors, and other forms of assistance as needed. The Board reviews the results of these evaluations and agrees on clear action plans to address any issues raised.

In line with governance best practices, the board evaluations shall be facilitated by a third party independent assessor every three (3) years reckoned from January 01, 2017 (effectivity date of the 2016 Code of Corporate Governance for Publicly Listed Companies).

### Continuing Education Programs

The Board identifies areas of continuing education on corporate governance topics they require. To keep the Board and key officers well-informed of governance related developments, regular annual education programs are conducted in coordination with SM Investments Corporation and training providers duly accredited by the Securities and Exchange Commission.

## Manual on Corporate Governance

In compliance with the initiative of the Securities and Exchange Commission (“SEC”), APC submitted its Manual on Corporate Governance (the “Manual”) to the SEC. This manual institutionalizes the principles of good corporate governance in the Company. The Company believes that corporate governance, the framework of rules, systems and processes governing the performance of the Board of Directors and Management of their respective duties and responsibilities, and from which the organization’s values and ethics emerge, is of utmost importance to the Company’s shareholders and other stakeholders, which include, among others, clients, employees, suppliers, financiers, government and community in which it operates. The Company undertakes every effort possible to create awareness throughout the entire organization.

## Board Committees

To assist the Board in its oversight responsibilities, various Board-level committees were created as follows:

1. Executive Committee – to oversee the management of the Company and is responsible for the Company’s goals, finances and policies.
2. Audit Committee – to review financial and accounting matters.
3. Nomination Committee – for the selection and evaluation of qualifications of directors and officers. This Committee was merged with the Corporate Governance Committee in May 2018.
4. Corporate Governance Committee – to assist and advise the Board of Directors in performing corporate governance compliance responsibilities in relation with the Company’s Manual on Corporate Governance, the Philippine Code of Corporate Governance, and the disclosure rules of the SEC and the PSE.
5. Compensation and Remuneration Committee – to look into an appropriate remuneration system.
6. Risk Management Committee – to review the policies and procedures relating to the identification, analysis, management, monitoring and reporting of financial and non-financial risks.
7. Related Party Transactions Committee – to assess material agreements with related parties to ensure that the RPT are conducted at market rates and on an arm’s length basis

## Code of Business Conduct and Ethics

The Company remains committed to align with the best corporate governance practices following the release of the 2016 Code of Corporate Governance for Publicly Listed Companies. In addition to the Manual on Corporate Governance (MCG), the Company’s Code of Business Conduct and Ethics (CBCE) defines good governance, ethics and compliance practices expected throughout the organization. The MCG and CBCE are communicated to directors, officers and employees to ensure familiarity and adherence. These documents are also made public through the Company’s corporate website <http://www.apcaragorn.net/>.

## Governance Policies

Company policies on governance were developed, submitted to and approved by the Board to protect the interests and rights of the shareholders and stakeholders and to promote transparency and accountability. Such governance related policies are shown below and may be viewed through the APC website: <http://www.apcaragorn.net/index.php/corporate-governance/company-policies>. These policies and procedures are initially cascaded throughout the organization via email blast, intranet portal and annual corporate governance trainings. The Board, through its various Board Committees, ensures that adequate internal control mechanisms are implemented and properly complied in all levels. Some of these policies are as follows:

1. Accountability, Integrity and Vigilance (Whistle-Blowing)
2. Alternative Dispute Resolution
3. Board Diversity
4. Conflict of Interest
5. Corporate Disclosures
6. Directors’ Board Seats Held in Other Companies
7. Employees’ Safety, Health and Welfare

8. Gifts / Hospitality / Entertainment

## STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The management of APC Group, Inc. and Subsidiaries ("APC Group") is responsible for the preparation and fair presentation of the consolidated financial statements including the schedules attached therein, for the years ended December 31, 2018 and 2017, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

The Board of Directors reviews and approves the consolidated financial statements including the schedules attached therein, and submits the same to the stockholders or members.

SyCip Gorres Velayo & Co., the independent auditors appointed by the stockholders, has audited the consolidated financial statements of the Company in accordance with Philippine Standards on Auditing, and in its report to the stockholders or members, has expressed its opinion on the fairness of presentation upon completion of such audit.

## INDEPENDENT AUDITOR'S REPORT

The Board of Directors and the Stockholders  
APC Group, Inc.  
G/F MyTown New York Bldg.  
General E. Jacinto St. corner Capas St.  
Brgy. Guadalupe Nuevo, Makati City

### Opinion

We have audited the consolidated financial statements of APC Group, Inc. and its subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2018 and 2017, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2018, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2018 and 2017, and its consolidated financial performance and its consolidated cash flows for each of the three years in the period ended December 31, 2018 in accordance with Philippine Financial Reporting Standards (PFRSs).

### Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements.

The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

#### *Recoverability of Deferred Exploration Costs*

As at December 31, 2018, the carrying value of the Group's deferred exploration costs amounted to ₱110.9 million. These deferred exploration costs pertain to the Aragorn Power and Energy Corporation (APEC)'s participating interest in Geothermal Renewable Service Contract (GRESK) and the expenditures incurred by APEC for the Kalinga Geothermal Project.

Under PFRS 6, *Exploration for and Evaluation of Mineral Resources*, these deferred exploration costs shall be assessed for impairment when facts and circumstances suggest that the carrying amount exceeds the recoverable amount. The ability of APEC to recover its deferred exploration costs would depend on the commercial viability of the reserves.

We considered this as a key audit matter because of the materiality of the amount involved and the significant management judgment required in assessing whether there is any indication of impairment.

The Group's disclosures about deferred exploration costs are included in Notes 1 and 10 to the consolidated financial statements.

#### *Audit Response*

We obtained management's assessment on whether there is any indication that deferred exploration costs may be impaired. We inspected the license/permit of the exploration period of GRESK to determine that the period for which APEC has the right to explore in the specific area has not expired, will not expire in the near future, and will be renewed accordingly. We reviewed the summary of the status of APEC's exploration project as at December 31, 2018, as certified by APEC's technical head, and compared it with the disclosures submitted to regulatory agencies. We reviewed the contracts and agreements, and budget for GRESK exploration costs. We checked the work program and corresponding budget furnished to the Department of Energy. We also read the minutes of the meetings of the Group's Board of Directors for the discussion of management plans.

#### **Other Information**

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2018, but does not include the consolidated financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2018 are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

## **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

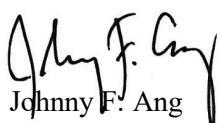

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Johnny F. Ang.

## **APC GROUP, INC. AND SUBSIDIARIES**

---

### **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

#### **1. General Information**

##### Corporate Information

APC Group, Inc. (the Parent Company or APC) and subsidiaries (the Group) were all incorporated in the Philippines and are registered with the Philippine Securities and Exchange Commission (SEC). The Parent Company was incorporated in the Philippines on October 15, 1993 and was originally organized to engage in the oil and gas exploration and development in the Philippines. On April 30, 1997, the Philippine SEC approved the change in the primary purpose of the Parent Company to that of a holding company. The Parent Company's shares of stock are publicly traded in the Philippine Stock Exchange (PSE).

The registered office address of the Parent Company is G/F MyTown New York Bldg, General E. Jacinto St. corner Capas St., Brgy Guadalupe Nuevo, Makati City.

The accompanying consolidated financial statements were approved and authorized for issue by the Board of Directors (BOD) on February 15, 2019.

##### Status of Operations

In 2005, the Group incorporated Aragorn Power and Energy Corporation (APEC), a subsidiary. APEC was established in line with the government's thrust in developing the country's energy sector. Thus, the Group will concentrate in energy resource exploration and development. The government's thrust to encourage investments in the energy sector augurs well with the Group's investment direction. Other subsidiaries are in the pre-operating stage.

As at February 15, 2019, the following are the status of operations of the Group.

##### **a. APEC**

As at February 15, 2019, APEC is still in the exploration stage. It was established to engage in energy resource exploration and development.

In 2008, APEC was granted a Geothermal Service Contract (GSC) by the Republic of the Philippines, through Department of Energy (DOE), for the exploration, development and exploitation of geothermal resources covering a total area of 26,139 hectares located in the Province of Kalinga. The GSC was granted after a Certificate Precondition from the National Commission of Indigenous People, covering a major portion of the geothermal service area, was secured. The GSC was converted into a Geothermal Renewable Service Contract (GRESA) in March 2010 to avail of the incentives provided under the Renewable Energy (RE) Act of 2008. GRESA has a term of not exceeding 25 years (including the used term under the GSC) and renewable for not more than 25 years. The total period from pre-development stage to the development/commercial stage shall not exceed 50 years.

In November 2010, APEC and its partner Guidance Management Corporation (GMC) forged a partnership with AllFirst Kalinga Ltd. (AKL, formerly Chevron Kalinga Ltd.), a wholly owned subsidiary of AllFirst Geothermal Philippines Holdings, Inc., (formerly Chevron Geothermal Philippines Holdings, Inc.) in developing the geothermal area. The parties signed a Farm-out Agreement (FOA) which gives APEC and GMC the option to take an equity position of up to 40% in the geothermal project. The parties also signed a Joint Operating Agreement. Under the agreement, AKL will be responsible for the exploration, development and operation of the steam field and power activities.

On August 13, 2018, APEC has secured an extension of the GRESC exploration period from DOE until September 23, 2020.

On August 14, 2018, pursuant to Executive Order No. 30, the Energy Investment Coordinating Council (EICC) through the Department of Energy approved the application of APEC for its Kalinga Geothermal Project (KGP) to qualify as an Energy Project of National Significance. The Certificate of Energy Project of National Significance (CEPNS) for Pre-Development Phase, entitles the KGP to all the rights privileges provided for under Executive Order No. 30 series 2017.

On September 18, 2018, AKL has assigned its Farm-out interest, including all associated rights and obligations under the FOA, in favor of its affiliate, Allfirst Kalinga Holdings, Inc. (AKHI).

As at February 15, 2019, APEC has completed sub-phases 1 and 2 covering, geochemical and geophysical surveys. APEC is already in the sub-phase 3 stage of the project. In line with this, APEC has already secured a Certificate of Non-Coverage for the access roads construction, improvement of existing roads and drilling of well-pads from the Department of Environment and Natural Resources (DENR). The surveys for the detailed engineering design of these roads and well pads have been completed. Accordingly, activities such as right-of-way negotiations, supplier bidding and contract preparations related to the road construction and drilling will follow.

The consent of nine (9) out of eleven (11) ancestral domains has been secured covering 85% of the GRESC area. In addition, all of the Community Development (CD) Projects have been fully completed and turned over to the respective community beneficiaries.

This KGP involves the development of steam fields that can generate around 120 megawatts (MW) of new capacity, providing an additional source of clean, indigenous and reliable baseload power to the Luzon grid. A 120 MW geothermal project will approximately cost more than US\$300.0 million.

b. APC Energy Resources Inc. (APC Energy)

APC Energy was established to engage in exploration, development and utilization of renewable energy resources. As at February 15, 2019, APC Energy is still in the pre-operating stage.

c. APC Mining Corporation (APC Mining)

APC Mining was organized to engage in mining, processing, manufacturing, buying and selling of all kinds of ores, metals and minerals. As at February 15, 2019, APC Mining is still in the pre-operating stage.

d. APC Cement Corporation (APC Cement)

APC Cement was established to engage in the manufacture of cement. As at February 15, 2019, APC Cement is still in the pre-operating stage.

e. PRC-Magma Energy Resources, Inc. (PRC Magma)

PRC Magma was established to engage in the business of exploration, development, and processing of renewable and non-renewable energy resources, including but not limited to wind power, solar power, hydropower, biofuels, biomass, and coal; exploration, mining and processing of metalliferous and non-metalliferous mineral and ore resources; trading and supply of energy and mineral resources; and generation of electric power using energy resources. As at February 15, 2019, PRC Magma is still in the pre-operating stage.

## 2. Basis of Preparation and Consolidation, Statement of Compliance and Summary of Significant Accounting Policies

### Basis of Preparation

The accompanying consolidated financial statements have been prepared on a historical cost basis, except for quoted available-for-sale (AFS) financial assets and investment properties which are measured at fair value. The consolidated financial statements are presented in Philippine peso (₱), which is the Group's functional and presentation currency under Philippine Financial Reporting Standards (PFRS). All values are rounded to the nearest peso, except when otherwise indicated.

### Statement of Compliance

The consolidated financial statements, which are prepared for submission to the SEC, have been prepared in compliance with PFRS.

### Basis of Consolidation

The consolidated financial statements include the accounts of the Parent Company and the following subsidiaries as at December 31, 2018:

Subsidiaries	Nature of Business	Percentage of Ownership		
		Direct	Indirect	Total
APEC <sup>(1)</sup>	Energy	95.6	—	95.6 <sup>(3)</sup>
PRC - Magma <sup>(1, 2)</sup>	Energy	—	85.0	85.0
APC Cement <sup>(1)</sup>	Manufacturing	100.0	—	100.0
APC Energy <sup>(1)</sup>	Mining	100.0	—	100.0
APC Mining <sup>(1)</sup>	Mining	83.0	—	83.0

The consolidated financial statements include the accounts of the Parent Company and the following subsidiaries as at December 31, 2017:

Subsidiaries	Nature of Business	Percentage of Ownership		
		Direct	Indirect	Total
APEC <sup>(1)</sup>	Energy	90.0	—	90.0
PRC - Magma <sup>(1, 2)</sup>	Energy	—	85.0	85.0
APC Cement <sup>(1)</sup>	Manufacturing	100.0	—	100.0
APC Energy <sup>(1)</sup>	Mining	100.0	—	100.0
APC Mining <sup>(1)</sup>	Mining	83.0	—	83.0

(1) Still in the pre-operating stage

(2) A direct subsidiary of APEC

(3) On April 10, 2018, the Parent Company subscribed to additional shares of APEC through capital infusion amounting to ₱76.5 million which increased the ownership interest of the Parent Company from 90% to 95.6%. This resulted to change in ownership interests in APEC without loss of control and accounted for as deemed acquisition of NCI. Loss on dilution of NCI amounted to ₱3.4 million, presented as part of "Equity Reserves" in the Statement of Financial Position.

All of the subsidiaries were incorporated in the Philippines.

Control is achieved when the Parent Company is exposed, or has right, to variable returns from its involvement with the investee. Specifically, the Parent Company controls an investee, if and only if, the Parent Company has:

- power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority voting rights results in control. To support this presumption, and when the Parent Company has less than a majority of the voting or similar rights of an investee, the Parent Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee;
- rights arising from other contractual arrangements; and
- the Group's voting rights and potential voting rights.

The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Parent Company gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income and expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company using consistent accounting policies.

A change in the ownership interest of a subsidiary, without loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

#### Non-controlling Interests (NCI)

NCI represent the portion of profit or loss and the net assets not held by the Group and are presented separately in the consolidated statements of comprehensive income and within equity in the consolidated statements of financial position, separately from equity attributable to owners of the Parent Company. Any losses applicable to a non-controlling shareholder of a consolidated subsidiary in excess of the non-controlling shareholder's equity in the subsidiary are charged against the NCI even if this results in NCI having a deficit.

#### Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except that the Group has adopted the following new accounting pronouncements starting January 1, 2018. Adoption of these pronouncements did not have any significant impact on the Group's financial position or performance unless otherwise indicated.

- Amendments to PFRS 2, *Share-based Payment, Classification and Measurement of Share-based Payment Transactions*
- PFRS 9, *Financial Instruments*, replaces Philippine Accounting Standards (PAS) 39, *Financial Instruments: Recognition and Measurement*, for annual periods beginning on or after January 1, 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The Group applied PFRS 9 using modified retrospective approach, with an initial application date of January 1, 2018. The effect of adopting PFRS 9 follows:

*(a) Classification and measurement*

Under PFRS 9, debt instruments are subsequently measured at fair value through profit of loss (FVTPL), amortized cost, or fair value through other comprehensive income (FVOCI). The classification is based on two criteria: the Group's business model for managing the assets; and whether the instruments' contractual cash flows represent 'solely payments of principal and interest' on the principal amount outstanding.

The assessment of the Group's business model was made as of the date of initial application, January 1, 2018, and then applied prospectively to those financial assets that were not derecognized before January 1, 2018. The assessment of whether contractual cash flows on debt instruments are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets.

The classification and measurement requirements of PFRS 9 did not have a significant impact on the Group. The Group continued measuring at fair value all financial assets previously held at fair value under PAS 39.

The following are the changes in the classification of the Group's financial assets:

- Cash and cash equivalents, and trade and other receivables amounting to ₱197.5 million as at December 31, 2017 previously classified as loans and receivables are held to collect contractual cash flows and give rise to cash flows representing solely payments of principal and interest. These are now classified and measured as debt instruments at amortized cost beginning January 1, 2018.
- Equity instruments previously classified as available-for-sale (AFS) financial assets amounting to ₱8.7 million as at December 31, 2017 are now classified and measured as equity instrument at FVOCI. There were no impairment losses recognized in profit or loss for these investments in prior periods.

There are no changes in classification and measurement for the Group's financial liabilities.

*(b) Impairment*

The adoption of PFRS 9 has fundamentally changed the Group's accounting for impairment losses for financial assets by replacing PAS 39's incurred loss approach with a forward-looking ECL approach.

The adoption of ECL approach has no significant impact on the allowance for impairment losses recognized in the consolidated financial statements.

- Amendments to PFRS 4, *Insurance Contracts*, Applying PFRS 9, *Financial Instruments*, with PFRS 4
- PFRS 15, *Revenue from Contracts with Customers*
- Amendments to PAS 28, *Measuring an Associate or Joint Venture at Fair Value* (Part of Annual Improvements to PFRS 2014 - 2016 Cycle)
- Amendments to PAS 40, *Investment Property*, *Transfers of Investment Property*

- Philippine Interpretation International Financial Reporting Interpretations Committee (IFRIC) - 22, *Foreign Currency Transactions and Advance Consideration*

#### Future Changes in Accounting Policies

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Group does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Group intends to adopt the following pronouncements when they become effective.

##### *Effective beginning on or after January 1, 2019*

- Amendments to PFRS 9, *Prepayment Features with Negative Compensation*
- PFRS 16, *Leases*
- Amendments to PAS 28, *Long-term Interests in Associates and Joint Ventures*
- Philippine Interpretation IFRIC-23, *Uncertainty over Income Tax Treatments Annual Improvements to PFRSs 2015-2017 Cycle*
  - Amendments to PFRS 3, *Business Combinations*, and PFRS 11, *Joint Arrangements, Previously Held Interest in a Joint Operation*
  - Amendments to PAS 12, *Income Tax Consequences of Payments on Financial Instruments Classified as Equity*
  - Amendments to PAS 23, *Borrowing Costs, Borrowing Costs Eligible for Capitalization*

##### *Effective beginning on or after January 1, 2020*

- Amendments to PFRS 3, *Definition of a Business*
- Amendments to PAS 1, *Presentation of Financial Statements*, and PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors, Definition of Material*

##### *Effective beginning on or after January 1, 2021*

- PFRS 17, *Insurance Contracts*

##### *Deferred effectivity*

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

#### *Summary of Significant Accounting Policies*

##### Current versus Noncurrent Classification

The Group presents assets and liabilities in statements of financial position based on current/noncurrent classification. An asset is classified as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as noncurrent.

A liability is classified as current when it is:

- Expected to be settled in normal operating cycle;
- Held primarily for the purpose of trading;
- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent.

#### Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from date of acquisition and are subject to an insignificant risk of change in value.

#### Determination of Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group determines the policies and procedures for both recurring and non-recurring fair value measurements. For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the assets or liability and the level of the fair value hierarchy.

The Group recognizes transfers into and transfers out of fair value hierarchy levels by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) as at the date of the event or change in circumstances that caused the transfer.

External valuers are involved for the valuation of significant assets, such as investment properties. Involvement of external valuers is decided upon annually. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. At each reporting date, the movements in the value of assets which are required to be re-measured or re-assessed as per accounting policies are analyzed. For the analysis, the major inputs applied in the latest valuation are verified by agreeing the information in the valuation computation to the contracts and other relevant documents.

In conjunction with the external valuers, the changes in the fair value of each assets and liabilities are compared with the relevant external sources to determine whether the change is reasonable. This includes a discussion of major assumptions used in the valuations. For the purpose of fair value disclosures, classes of assets and liabilities are determined on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

*'Day 1' Difference.* When the transaction price in a non-active market is different from the fair value based on other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a 'Day 1' difference) in the consolidated statement of comprehensive income unless it qualifies for recognition as some other type of asset. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in the consolidated statement of comprehensive income when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the 'Day 1' difference amount.

#### Financial Instruments - Initial Recognition and Subsequent Measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### Financial assets

*Initial recognition and measurement.* Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through OCI, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has

applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

*Subsequent measurement.* For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

*Financial assets at amortized cost (debt instruments).* This category is the most relevant to the Group. The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

*Financial assets at fair value through OCI (debt instruments).* The Group measures debt instruments at fair value through OCI if both of the following conditions are met:

- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in the statement of profit or loss and computed in the same manner as for financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI. Upon derecognition, the cumulative fair value change recognized in OCI is recycled to profit or loss.

*Financial assets designated at fair value through OCI (equity instruments).* Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under PAS 32 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

*Financial assets at fair value through profit or loss.* Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortized cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognized in the statement of profit or loss.

This category includes derivative instruments and listed equity investments which the Group had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are also recognized as other income in the statement of profit or loss when the right of payment has been established.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognized in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

*Derecognition.* A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

*Impairment of financial assets.* The Group recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Group considers a financial asset in default when contractual payments are 60 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

### Financial liabilities

*Initial recognition and measurement.* Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, and derivative financial instruments.

*Subsequent measurement.* The measurement of financial liabilities depends on their classification, as described below:

*Financial liabilities at fair value through profit or loss.* Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the statement of profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied. The Group has not designated any financial liability as at fair value through profit or loss.

*Loans and borrowings.* This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss.

*Derecognition.* A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

#### Other Current Assets

Other current assets include input value-added tax (VAT) which are recorded as assets before they are utilized.

#### Property and Equipment

Property and equipment are stated at cost excluding the cost of day-to-day servicing, less accumulated depreciation and amortization and accumulated impairment losses. The initial cost of property and equipment consists of its purchase price, including import duties and any directly attributable costs, including borrowing cost, in bringing the property and equipment to its working condition and location for its intended use. Such cost includes the cost of replacing part of such property and equipment when that cost is incurred if the recognition criteria are met. Expenditures incurred after the property and equipment have been put into operation, such as repairs and maintenance, are normally charged to operations in the period such costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment.

Depreciation and amortization are computed using the straight-line method over the following estimated useful lives:

Office and other equipment	1 to 5 years
Leasehold improvements	5 years or term of the lease, whichever is shorter

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the consolidated statements of comprehensive income in the year the asset is derecognized.

Fully depreciated assets are retained in the accounts until they are no longer in use and no further depreciation and amortization are credited or charged to current operations.

The property and equipment's residual values, useful lives and depreciation and amortization method are reviewed, and adjusted if appropriate, at each financial year-end.

#### Investment Property

Investment property represents land measured initially at cost, including related transaction costs. Subsequent to initial recognition, investment property is stated at fair value, which reflects market conditions at the reporting date and have been determined based on the latest valuations performed by an independent firm or appraisers. Gains or losses arising from changes in the fair values of investment property are included in the consolidated statements of comprehensive income in the year in which the gains or losses arise.

The standard requires all entities to measure the fair value of investment property, for the purpose of either measurement (if the entity uses the fair value model) or disclosure (if it uses the cost model). An entity is encouraged, but not required, to measure the fair value of investment property on the basis of a valuation by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

Investment property is derecognized when either it has been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the consolidated statements of comprehensive income in the year of retirement or disposal.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by ending of owner-occupation or commencement of an operating lease to another party. Transfers are made from investment property when, and only when, there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. These transfers are recorded using the carrying amount of the investment property at the date of change in use.

#### Mining Rights

Mining rights are carried at cost less any impairment in value.

Expenditures for mine exploration work prior to drilling are charged to operations. Expenditures for the acquisition of property rights and expenditures subsequent to drilling and development costs are deferred. When exploration work and project development results are positive, these costs and subsequent mine development costs are capitalized as "Mining rights," which are included as part of "Deferred exploration costs and other noncurrent assets" account in the consolidated statement of financial position, until the start of commercial operations when such costs are transferred to property and equipment. When the results are determined to be negative or not commercially viable, the accumulated costs are written off.

#### Deferred Exploration Costs

Expenditures for exploration works on mining and geothermal properties (i.e., acquisition of rights to explore, topographical, geological, geochemical and geophysical studies, exploratory drilling, trenching, sampling, and activities in relation to evaluating the technical feasibility and commercial viability of extracting a mineral resource) are deferred as incurred and included as part of "Deferred exploration costs and other noncurrent assets" account in the consolidated statements of financial position.

A provision for impairments is provided for unrecoverable mining rights and deferred exploration costs based on the Group's assessment of the future prospects of the exploration project. Full provision is made for the impairment unless it is probable that such costs are expected to be recouped through successful exploration and development of the area of interest, or alternatively, by its sale. If the project does not prove to be viable, all revocable cost associated with the project and the related impairment provisions are written off. When a project is abandoned, the related deferred exploration costs are also written off.

#### Goodwill

*Initial Measurement of Goodwill or Gain on a Bargain Purchase.* Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in profit or loss as gain on a bargain purchase. Before recognizing a gain on a bargain purchase, the Group determines whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognize any additional assets or liabilities that are identified in that review.

*Subsequent Measurement of Goodwill.* Following initial recognition, goodwill is measured at cost less any accumulated impairment losses.

*Impairment Testing of Goodwill.* For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition-date, allocated to each of the Group's cash generating unit (CGU), or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units or groups of units. Each unit or group of units to which the goodwill is allocated:

- represents the lowest level within the Group at which the goodwill is monitored for internal management purposes; and
- is not larger than an operating segment as defined in PFRS 8, *Operating Segments*, before aggregation.

Impairment is determined by assessing the recoverable amount of the CGU or group of CGUs, to which the goodwill relates. When the recoverable amount of the cash generating unit or group of cash generating units is less than the carrying amount, an impairment loss is recognized. Impairment loss with respect to goodwill cannot be reversed in future periods.

The Group bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Group's CGU to which the goodwill is allocated. These budgets and forecasts calculations generally cover a period of five years. A long-term growth rate is calculated and applied to projected future cash flows after the fifth year.

When goodwill forms part of a CGU or group of CGUs and part of the operations within the unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed and the portion of the CGU retained.

When business combination involves more than one exchange transaction (occurs in stages), each exchange transaction is treated separately by the Group, using the cost of transaction and fair value information at the date of each exchange transactions, to determine the amount of goodwill associated with that transaction. Any adjustment to fair value relating to the previously held interest is a revaluation and is accounted for as such.

When subsidiaries are sold, the difference between the selling price and the net assets plus goodwill is recognized in profit or loss.

#### Capital Stock and Additional Paid-in Capital (APIC)

Capital stock is measured at par value for all shares issued. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax. Proceeds and/or fair value of considerations received in excess of par value, if any, are recognized as APIC.

#### Treasury Shares

Own equity instruments which are reacquired (treasury shares) are recognized at cost and deducted from equity. No gain or loss is recognized in the consolidated statement of comprehensive income on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration is recognized as APIC.

### Deficit

The amount included in deficit includes cumulative amount of profit (loss) attributable to the Group's equity holders.

### Revenue from contracts with customers

The Group is organized to engage in the oil and gas exploration and development in the Philippines. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements, except for the agency services below, because it typically controls the goods or services before transferring them to the customer.

The Group is still in the pre-operating stage as at December 31, 2018.

*Interest Income.* Revenue is recognized as the interest accrues, taking into account the effective yield on the assets.

*Dividend Income.* Revenue is recognized when the Group's right to receive the payment is established.

### Expenses

General and administrative expenses are recognized as incurred.

### Employee Benefits

*Retirement Costs.* The Group has an unfunded, noncontributory defined benefit retirement plan covering substantially all of its employees.

The defined benefit liability is the aggregate of the present value of the defined benefit obligation at the end of the reporting period. The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Defined benefit costs comprise the following:

- Service cost
- Interest on the defined benefit liability
- Remeasurements of net defined benefit liability

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Interest on the net defined benefit liability is the change during the period in the defined benefit liability that arises from the passage of time which is determined by applying the discount rate based on government bonds to the defined benefit liability. Interest on the defined benefit liability is recognized as expense in profit or loss.

Remeasurements comprising actuarial gains and losses (excluding interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Actuarial valuations are made with sufficient regularity that the amounts recognized in the consolidated financial statements do not differ materially from the amounts that would be determined at the reporting period.

*Other Employee Benefits.* Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees. The undiscounted liability for leave expected to be settled wholly before twelve months after the end of the annual reporting period is recognized for services rendered by employees up to the end of the reporting period.

#### Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease only if one of the following applies:

- a. there is a change in contractual terms, other than a renewal or extension of the agreement;
- b. a renewal option is exercised or extension granted, unless the term of the renewal or extension was initially included in the lease term;
- c. there is a change in the determination of whether the fulfillment is dependent on a specified asset;  
or
- d. there is a substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment for scenarios a, c or d and the date of renewal or extension period for scenario b.

*Company as a Lessee.* Leases where the lessor retains substantially all the risks and benefits of ownership of the assets are classified as operating leases. Operating lease payments are recognized as expense in the consolidated statements of comprehensive income on a straight-line basis over the lease term.

#### Taxes

*Current Tax.* Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to item recognized directly in equity is recognized in equity and not in the profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

*Deferred Tax.* Deferred income tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- In respect of taxable temporary differences associated with investments in subsidiaries and associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and by the parent, venture or investor, respectively, and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences the carry forward benefits of unused tax credits and any unused tax losses from excess minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and net operating loss carryover (NOLCO) to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and carry forward benefits of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of deductible temporary differences associated with investments in subsidiaries and associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and deferred tax liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted as at the reporting date.

Deferred tax relating to items recognized in OCI are included in the related OCI in the consolidated statement of comprehensive income and not in profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and levied by the same taxation authority.

*VAT.* Revenues, expenses, and assets are recognized net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as part of "Trade and other payables" account in the consolidated statements of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as part of "Other current assets" account in the consolidated statements of financial position to the extent of the recoverable amount.

#### Foreign Currency-Denominated Transactions

Transactions in foreign currencies are initially recorded in the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are re-translated using the closing exchange rate at the reporting date. All differences are taken to the

consolidated statements of comprehensive income. Nonmonetary items are translated using the closing exchange rate as at the date of initial transaction.

#### Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. Where the Group expects a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the receipt of the reimbursement is virtually certain.

#### Contingencies

Contingent liabilities are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements when an inflow of economic benefits is probable.

#### Events after the Reporting Period

Post year-end events that provide additional information about the Group's financial position at the reporting period (adjusting events), if any, are reflected in the consolidated financial statements. Post financial year-end events that are not adjusting events are disclosed in the notes to consolidated financial statements when material.

#### Earnings (Loss) per Common Share

Earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of common shares issued and outstanding during each year after giving retroactive effect to stock dividends declared during the year and after deducting the treasury shares, if any. The Group has no dilutive potential common shares outstanding.

### **3. Significant Judgment, Estimates and Assumptions**

The preparation of the consolidated financial statements requires management to make judgment, estimates and assumptions that affect certain reported amounts and disclosures. In preparing the consolidated financial statements, management has made its best judgment and estimates of certain amounts, giving due consideration to materiality. The judgment, estimates and assumptions used in the consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as at the date of the consolidated financial statements. Actual results could differ from those estimates, and such estimates will be adjusted accordingly.

Judgment, estimates and assumptions are continually evaluated and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group believes that the following represent a summary of these significant judgment, estimates and assumptions and related impact and associated risks in its consolidated financial statements.

### Judgments

In the process of applying the accounting policies, management has made the following judgments, apart from those involving estimations, which has the most significant effect on the amounts recognized in the consolidated financial statements:

*Impairment of financial assets.* The Group recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The carrying values of cash and cash equivalents, trade and other receivables and deposits amounted to ₱145.1 million and ₱197.7 million as at December 31, 2018 and 2017, respectively (see Notes 5 and 6).

*Classification of AFS Financial Assets.* The Group holds various AFS financial assets. The Group expects that portion of these AFS financial assets are to be realized within 12 months from the reporting date to respond to the liquidity requirement of the Group. Consequently, these are classified as part of current assets in the consolidated statements of financial position.

AFS financial assets amounted to ₱5.2 million and ₱8.7 million as at December 31, 2018 and 2017, respectively (see Note 7).

### Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

*Impairment of Nonfinancial Assets (excluding Goodwill).* An impairment review is performed, either individually or at the CGU level, when there are indicators that the carrying amount of the assets may exceed their recoverable amounts. To the extent that this occurs, the excess is fully provided against, in the reporting period in which this is determined.

Deferred exploration costs are reassessed on a regular basis and these costs are carried forward provided that all of the following conditions are met:

- the period for which the entity has the right to explore in the specific area has not expired during the period or will not expire in the near future, and is expected to be renewed;
- substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is budgeted or planned;
- the exploration for and evaluation of mineral resources in the specific area led to the discovery of commercially viable quantities of mineral resources and the entity has not decided to discontinue such activities in the specific area;
- and sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset will be recovered in full from successful development or by sale.

The carrying values of the Group's nonfinancial assets that are subject to impairment testing when certain impairment indicators are present are as follows:

	2018	2017
Deferred exploration costs and mining rights (see Note 10)	<b>₱110,878,886</b>	₱59,702,160
Property and equipment (see Note 8)	<b>15,620</b>	24,546

Write off/provision for impairment of deferred exploration costs and mining rights amounted to nil both in 2018 and 2017 and ₱12.9 million in 2016 (see Note 10).

*Fair Value of Investment Property.* The Group engaged an independent valuation specialist to determine the fair value of investment property. The appraiser used a valuation technique based on Market Data Approach. In this approach, the value of the land is based on sales and listings of comparable property registered within the vicinity. The technique of this approach requires the adjustments of comparable property by reducing reasonable comparative sales and listings to a common denominator. This is done by adjusting the differences between the subject property and those actual sales and listings regarded as comparable. The properties used as basis of comparison are situated within the immediate vicinity of the subject property. The comparison was premised on the factors of location, size and shape of the lot and time element.

As at December 31, 2018, the Group did not engage an independent valuation specialist to determine the fair value of its investment property and used the 2016 appraisal report as basis in determining the fair value of the investment property. Furthermore, the standard encouraged an entity, but it does not require, to measure the fair value of investment property on the basis of a valuation by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

Because of this, the Group referred to PAS 16, *Property, Plant and Equipment*, which states that the frequency of revaluations depends upon the changes in fair values of the items of property, plant and equipment being revalued. When the fair value of a revalued asset differs materially from its carrying amount, a further revaluation is required. Some items of property, plant and equipment experience significant and volatile changes in fair value, thus necessitating annual revaluation. Such frequent revaluations are unnecessary for items of property, plant and equipment with only insignificant changes in fair value. Instead, it may be necessary to revalue the item only every three or five years.

Based on the Group's assessments, there are no significant changes in fair value from the 2016 appraisal report. The fair value of investment property amounted to ₱10.0 million and ₱22.4 million as at December 31, 2018 and 2017, respectively (see Note 9).

*Realizability of Deferred Tax Assets.* The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that sufficient future taxable profit will be generated to allow all or part of the deferred tax assets to be utilized. The Group's assessment on recognition of deferred tax assets on deductible temporary differences and carryforward benefits of MCIT and NOLCO is based on the forecasted taxable income. This forecast is based on the Group's past results and future expectations on revenue and expenses.

Unrecognized deferred tax assets amounted to ₱51.2 million and ₱52.2 million as at December 31, 2018 and 2017, respectively (see Note 15).

*Fair Value of Assets and Liabilities.* Certain assets and liabilities are required to be carried or disclosed at fair value, which requires the use of accounting estimates and judgment. While significant components of fair value measurement are determined using verifiable objective evidence (i.e., foreign exchange rates, interest rates, volatility rates), the timing and amount of changes in fair value would differ with the valuation methodology used. Any change in the fair value of these financial assets and financial liabilities would directly affect profit or loss and equity.

The fair values of the Group's assets and liabilities are disclosed in Note 19.

*Retirement Costs.* The cost of the defined benefit pension plan and other post-employment medical benefits and the present value of the pension obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

In determining the appropriate discount rate, management considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation.

Retirement costs amounted to ₱0.5 million in 2018 and 2017 and ₱0.4 million in 2016. Accrued retirement costs amounted to ₱3.2 million and ₱2.7 million as at December 31, 2018 and 2017, respectively (see Note 14).

*Contingencies.* The estimate of the probable costs for the resolution of possible claims has been developed in consultation with outside counsel handling the Group's defense in these matters and is based upon an analysis of potential results. The Group is a party to certain lawsuits or claims arising from the ordinary course of business. However, the Group's management and legal counsel believe that, after making certain provisions in prior years, the eventual liabilities under these lawsuits or claims, if any, will no longer have a material effect on the Group's consolidated financial statements. Accordingly, no provision for probable losses arising from legal contingencies was recognized in the consolidated statements of comprehensive income in 2018, 2017 and 2016.

#### 4. Segment Information

The Group's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. These segments are regularly reviewed by the Management Committee, which is the Chief Operating Decision Maker, to make decisions about how resources are to be allocated to each of the segments and to assess their performances, and for which discrete financial information is available.

As discussed in Note 1, the Group is engaged in mining and exploration activities, among others.

Following are the segments of the Group:

- a. Mining and Exploration - pertain to the mining, coal and power and energy business of the Group.
- b. Unallocated Corporate Balances and Other Operations - contain the operations of the holding company.

Segment revenue, segment expenses and segment results include transfers among business segments. Those transfers are eliminated in the consolidation. The amounts of segment assets and liabilities and segment profit or loss are based on measurement principles that are similar to those used in measuring the assets and liabilities and profit or loss in the consolidated financial statements, which is in accordance to PFRS.

Information with regard to the significant business segments of the Group are shown below.

	Mining and Exploration	Unallocated Corporate Balances and Other Operations	Combined	Eliminations	Total Operations

## 9. Investment Property

The movement of this account follows:

	2018	2017
Balance at beginning of year	<b>₱22,374,000</b>	₱22,374,000
Disposal	<b>(12,345,130)</b>	—
Balance at end of year	<b>₱10,028,870</b>	₱22,374,000

Investment property consists of parcels of land which is being held by the Group for capital appreciation.

In 2018, the Group sold parcels of land for a total consideration amounting to ₱9.3 million which resulted to a loss on sale of investment property of ₱3.0 million.

The fair value of the remaining investment property as at December 31, 2018 was determined by Colliers International Philippines, Inc., an independent appraiser, on October 12, 2016. The appraiser is an industry specialist in valuing these types of investment property. Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair values of investment property are determined using the market data approach by gathering available market evidences.

The Group has no limitations to any particular class of heirs or restrictions, but subject to the limitations of eminent domain, police power and taxation.

Fair value hierarchy disclosures for investment property has been provided in Note 19.

Description of valuation techniques used and key inputs to valuation on investment property are as follows:

#### Highest and Best Use

Based on analysis of prevailing land usage in the neighborhood and the property itself, *diversified agro-industrial land development* would represent the highest and best use of the property.

*Highest and Best Use* is defined as the most profitable likely use to which a property can be put. The opinion of such use may be based on the highest and most profitable continuous use to which the property is adapted and needed or that use of land which may reasonably be expected to produce the greatest net return to land over a given period of time. Alternatively, it is that use, from among reasonably probable and legal alternative uses, found to be physically possible, appropriately supported, financially feasible, and which results in highest land value.

#### Market Data Approach

The value of the land was arrived at using the *Market Data Approach*. In this approach, the value of the land was based on sales and listings of comparable property registered within the vicinity. The technique of this approach requires the adjustments of comparable property by reducing reasonable comparative sales and listings to a common denominator. This was done by adjusting the differences between the subject property and those actual sales and listings regarded as comparable. The properties used as bases of comparison are situated within the immediate vicinity of the subject property. The comparison was premised on the factors of locations, size and shape of the lot, time element and others.

While fair value of the investment property was not determined as at December 31, 2018, the Group's management believes that there were no conditions present in 2018 that would significantly reduce the fair value of the investment properties from that determined in 2016.

The Group recognized gain on fair value change in investment property amounting to nil both in 2018 and 2017, and ₱7.5 million in 2016.

## 10. Deferred Exploration Costs and Other Noncurrent Assets

This account consists of:

	2018	2017
Deferred exploration costs - net	<b>₱110,878,886</b>	₱59,702,160
Deposits and others (see Notes 18 and 19)	<b>23,822</b>	190,398
	<b>₱ 110,902,708</b>	₱59,892,558

### Deferred Exploration Costs - net

Deferred exploration costs are carried at cost net of allowance for impairment losses. Movements in the account are as follows:

	2018	2017
Cost:		
Balance at beginning of year	<b>₱123,367,084</b>	₱122,838,947
Additions	<b>51,176,726</b>	528,137
Balance at end of year	<b>174,543,810</b>	123,367,084
Less allowance for impairment	<b>63,664,924</b>	63,664,924
Net book value	<b>₱110,878,886</b>	₱59,702,160

Deferred exploration costs relate to geothermal projects. The ability of the Group to recover its deferred exploration cost would depend on the success of exploration activities and on the commercial viability of the reserves (see Note 1).

The Group incurred exploration costs amounting to ₱51.2 million, ₱0.5 million and ₱0.6 million in 2018, 2017 and 2016, respectively, in connection with the exploration activities, engineering design and technical feasibility of its Geothermal Kalinga Project.

No impairment loss was recognized in 2018 and 2017.

## 11. Trade and Other Payables

This account consists of:

Payable to government agencies	<b>25,077</b>	40,139
	<b>₱28,449,031</b>	₱31,051,650

The terms and conditions of the above payables are as follows:

- Trade payables are noninterest-bearing and are normally settled on a 30-day term.
- Accrued expenses mainly pertain to payable to utility and other service providers which are normally settled within the next financial year.
- Payable to third party mostly pertain to payables that are noninterest-bearing and are due and demandable.
- Nontrade payables are noninterest-bearing and payable on demand.
- Payable to government agencies mainly pertain to statutory liabilities such as output VAT, withholding taxes and premiums on Social Security System (SSS), Philhealth and Pag-IBIG fund which are normally settled within the next financial year.

## 12. Equity

- b. The preferred shares may be issued from time to time by the Parent Company's BOD, which is authorized to adopt resolutions authorizing the issuance thereof in one or more series for such number of shares and relative rights and preferences, as it may deem beneficial to the Parent Company. As at February 15, 2019, the Parent Company's BOD has not authorized any issuance of preferred shares.
- c. The following summarizes the information on the Parent Company's registration of securities under the Securities Regulation Code:

Date of SEC Approval	Type of Issuance	Authorized Shares	Issue/ Offer Price
January 7, 1994	Initial public offering	80,000,000,000	₱0.01
July 9, 1996	Additional public offering	100,000,000,000	0.01
July 12, 1996	Stock option	5,300,000,000	0.01

The total number of shareholders is 595 and 594 as at December 31, 2018 and 2017, respectively.

On August 9, 2017, the Parent Company's BOD approved the reduction of the par value of the Parent Company's capital stock from ₱1 par value per share to ₱0.01 par value per share. The authorized capital stock of the Parent Company will be ₱200.0 million, divided into ₱140.0 million common shares and ₱60.0 million preferred shares. This was approved by the Parent Company's stockholders on September 27, 2017.

The reduction in par value will generate sufficient APIC to wipe out the Group's deficit. As at February 15, 2019, the Parent Company is in the process of filing its application of amended Articles of Incorporation with the SEC.

### 13. General and Administrative Expenses

### 14. Retirement Plan

The Group has an unfunded, noncontributory defined benefit retirement plan covering substantially all of its employees. The plan provides for a lump sum benefit payment upon retirement.

Under the existing regulatory framework, Republic Act (RA) No. 7641, an act amending Article 287 of Presidential Decree (PD) No. 442, as amended, otherwise known as the *Labor Code of the Philippines*, requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

Changes in accrued retirement costs are as follows:

	2018	2017	2016
Balance at beginning of year	<b>₱2,665,286</b>	₱2,800,500	₱2,364,600

## 15. Income Tax

In 2017 and 2016, the current provision for income tax is computed using MCIT.

The reconciliation of benefit from income tax computed at the statutory income tax rate to provision for income tax shown in the statements of comprehensive income follows:

	2018	2017	2016
Benefit from income tax at statutory income tax rate	(P3,455,358)	(P4,924,184)	(P14,097,994)
Increase (decrease) in income tax resulting from:			
Change in unrecognized deferred tax assets	(936,656)	2,951,878	5,298,190
Expired NOLCO and MCIT	5,143,848	2,748,167	1,911,405
Nondeductible expenses	402,768	448,688	4,016,158
Interest income subjected to final tax	(1,070,835)	(1,170,053)	(367,506)
Dividend income exempt from income tax	(83,767)	(53,606)	(41,016)

Unrecognized deferred tax assets	P51,214,658	P52,151,314	P49,387,154

Deferred tax assets were not recognized as at December 31, 2018 and 2017 as management believes it is not probable that future taxable profits will be sufficient against which these can be utilized.

As at December 31, 2018, the Group's NOLCO and MCIT, which can be carried forward and claimed as deductions against regular taxable income and as tax credit against regular corporate income tax due, respectively, are as follows:

Year Incurred / Paid	Expiry Date	NOLCO	MCIT
2016	2019	23,357,961	71,437
2017	2020	18,506,671	890
2018	2021	13,518,653	—

RA No.10963 or the Tax Reform for Acceleration and Inclusion Act (TRAIN) was signed into law on December 19, 2017 and took effect on January 1, 2018, making the new tax law enacted as of the reporting date. Although the TRAIN changes existing tax law and includes several provisions that will generally affect businesses on a prospective basis, the management assessed that the same will not have any significant impact on the financial statement balances as of the reporting date.

## 16. Related Party Transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. This includes: (a) individuals owning, directly or indirectly through one or more intermediaries; (b) associates; (c) individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the Group, key management personnel, including directors and officers of the Group and close members of the family of any such individual and; (d) affiliate, which is a party that, directly or indirectly through one or more intermediaries, control, is controlled by, or is under common control with the Group. Transactions with related parties are normally settled in cash. There have been no guarantees provided or received for any related party receivables or payables and settlement occurs in cash.

Related party transactions pertain to the availment of noninterest-bearing advances from a stockholder and other related parties. The details of advances from related parties are as follows:

#### 18. Financial Risk Management Objectives and Policies

The Group's principal financial instruments comprise advances from related parties. The main purpose of these financial liabilities is to finance the Group's operations. The Group has cash and cash equivalents, trade and other receivables, deposits and trade and other payables that arise directly from its operations. Other financial instruments consists of AFS financial assets and advances from a related party.

The main risks arising from the Group's financial instruments are credit risk, liquidity risk and equity price risk. The BOD and management review and approve policies of managing each of the risks and they are summarized below.

##### Credit Risk

Credit risk is the risk that a counterparty will not meet its obligation under a financial instrument or customer contract, leading to a financial loss.

Exposure to credit risk is monitored on an ongoing basis, credit checks are performed on all clients requesting credit over certain amounts. Credit granted is subject to regular review, to ensure it remains consistent with the customers' current credit worthiness and appropriate to the anticipated volume of business. The investment of the Group's cash resources is managed so as to minimize risk while seeking to enhance yield. The Group is exposed to credit risk, if the counterparty is unwilling or unable to fulfill its obligations and the Group consequently suffers financial loss. Credit risk

management involves entering into financial transactions only with counterparties with acceptable credit rating.

There are no significant concentrations of credit risk within the Group. Since the Group trades only with recognized third parties, there is no requirement for collateral. The carrying values of the Group's financial assets represent the maximum exposure to credit risk as at the reporting date.

The aging analyses of financial assets as at December 31 are follows:

The credit rating of the Group's financial assets are categorized based on the Group's collection experience with the counterparties.

- a. High Grade - this includes deposits or placements to counterparties with good credit rating or bank standing. For trade and other receivables, settlements are obtained from counterparty following the terms of the contracts without much collection effort.
- b. Standard Grade - this includes deposits or placements to counterparties that are not classified as "high grade."

#### Liquidity Risk

Liquidity risk arises from the possibility that the Group may encounter difficulties in raising funds to meet commitments from financial instruments. The Group's objective is to maintain continuity of funding. The Group's policy is to maximize the use of suppliers' credit for all its major purchases and limit major capital expenditures at a reasonable level. The Group monitors its cash position by a system of cash forecasting. All expected collections, check disbursements and other payments are determined on a weekly basis to arrive at the projected cash position to cover its obligations. The Group's financial assets, which are used to meet its short-term liquidity needs, include cash and cash equivalents, trade and other receivables and AFS financial assets totaling ₱150.3 million and ₱206.2 million as at December 31, 2018 and 2017, respectively.

The table below summarizes the maturity profile of the Group's other financial liabilities based on contractual undiscounted payments as at December 31.

#### Equity Price Risk

The Group's investments in equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's BOD reviews and approves all equity investment decisions.

The Group's exposure to quoted securities amounted to ₱5.2 million and ₱8.7 million as at December 31, 2018 and 2017, respectively (see Note 7).

The effect on the consolidated income or equity, depending on whether or not decline is significant or prolonged (as a result of a change in fair value of quoted equity instruments held as AFS financial assets as at December 31, 2018 and 2017) due to reasonably possible change in equity indices, with all other variables held constant, is as follows:

	Change in Equity Price*	Effect on Equity
<b>2018</b>	<b>7%</b> <b>(7%)</b>	<b>₱356,539</b> <b>(356,539)</b>
2017	1% (1%)	₱88,048 (88,048)

### Capital Management

The main objective of the Group is to maintain a strong and healthy financial position.

Presently, the cash requirements of the Group are financed mainly from internally generated sources. Major projects will be financed by debt and/or equity funds from strategic partnerships with investors (both foreign and local) who are willing to put a stake in the projects. Through a combination of debt and equity financing, the Group should be able to maintain a strong and solid capital structure.

The capital structure of the Group consists of capital stock and additional paid-in capital amounting to ₱7,972.6 million after deduction treasury shares at December 31, 2018 and 2017, respectively.

There were no changes in the objectives, policies or procedures during the years ended December 31, 2018 and 2017.

## 19. Financial Assets and Liabilities

A comparison by category of the carrying values and estimated fair values of the Group's financial instruments that are carried in the consolidated statements of financial position as at December 31, 2018 and 2017 are as follows:

### Cash and Cash Equivalents, Trade and Other Receivables, Trade and Other Payables, and Advances from Related Parties

Due to the short-term nature of the transactions, the carrying values approximate the fair values at reporting dates.

### AFS Financial Assets

The fair values of quoted equity securities were determined by reference to market bid quotes as of reporting dates.

### Deposits and Subscriptions Payable

Due to non-availability of definite payment terms, there is no reliable source of fair value as of reporting dates.

The following tables provide the fair value measurement hierarchy of the Group's assets and liabilities as at December 31, 2018 and 2017:

2018
